Usually it is Best to Go to a Good Movie and witness the events Yourself, than for someone to tell You all the details. Our mind works in pictures, even when we are just using words, the mind still constructs it own pictures so we get an understanding base on our point of reference.

"First Step Tip" is see it all unfold right before Your very own eyes, How even if all one had was Your Name and Your Email Address, You will still encounter being blessed.

That's the real power of an Irresistible Offer, that will cause Viral Marketing Illustrated to reach it's critical mass. Witness it Yourself and harvest the love and care.

Everyone Wins, It's a Win, Win, Situation!

Literally Thousands of Dollars in Real { USD } Value of Fresh Digital eBooks and Software is Ones own motivation to tell someone else How to Benefit from there New Found Treasure.

Imagine having *Ten Doors* as we illustrated in this Free Report, that's where each Vendor is really motivated to see their fellowman succeed and going the extra mile to prove their worth. Who wouldn't want that kind of person to send them an Email.

That's the real essence of a right relationship human to human. Building Your Email list that is Highly Responsive is base on the WOW in Your Unique Ability to be remembered by the Picture Your Brain made to know the communicator.

Was the person determine to do good on Your behalf even when at the time, all You had was Your Name and Email address and Your Computer Connection to the Internet.

Certainly we all love benefits and any business that will be able to remain in business must turn some profits. We Invest substance with much less fretting if at all, when we know the person is our friend or has at least proven that our interest is a part of their attention span.

Remember, that In Building Your Business...

By far the "most important and valuable" part of your business is: Having your own large and "responsive" Opt-in Email Contact List: -) Better to have a list of 12,000 Loyal Subscribers and Readers than 120,000 that never give Your Email enough priority to whitelist it.

Step Two,

Build Your Report with a Place Holder, so that You can have the ability to Update the User many months later after Your System has reached critical mass. You may be overlooking a major source of Your website Traffic if You are overlooking this Viral Marketing aspect in Your Business.

Be certain that You Inserted a Place Holder in the Report "Specifically for Updates" and make it easy to see.

You can use for Example, "**What Is New**" in the Viral Marketing Tool You use. Uploaded on Your web server, You would have a file that You can change the Content of that Page anytime You need to Updated the Content of the page.

It could simply be some Meta Refresh Code as long as You be sure and Fill in the Information in the <Title> Tag of Your HTML Source for the Meta Refresh. Just another good and important reason to Invest as little \$7.77 for Your Domain Hosting on the web, certainly it's worth a measley \$93.24 a year to have First Class Operations of a Domain.

Being able to reach the Users of Your Viral Marketing Tool with New Updates and even Current News on periodic bases is Crucial for the use of the Place Holder. Think about it, when Your Viral Marketing Tool Reaches Critical Mass it could be in many different nations and within 15 minutes or so You could have Updated Thousands of Copies.
